

ATTENTION EDUCATORS! Scholarships for International Conference Registrations available

& the chance to win \$200 for your classroom!

Sign up with two high school students interested in ocean energy as a renewable energy source!

EnergyOcean Conference

June 18, 8am-4pm
Samoset Resort, Rockport

Take advantage of this premier EnergyOcean conference and exhibition to reinforce students' interest in science, technology, engineering and math.

There is no cost for this event and travel reimbursement is available. Join nearly 400 technologists, financiers and policy makers expected to attend. Learn about the renewables market of ocean-based energy.

Pre-registered Teams of a teacher and two high school students can attend EnergyOcean 2009 at no cost. If your team turns in a post-conference report, your classroom could win \$200!

See Contest Guidelines for complete details.
Questions? 207-624-9803

EnergyOcean Contest is presented by E2Tech, in cooperation with Maine Department of Economic and Community Development, to encourage the next generation of professionals toward science, technology, engineering and math-related industries so they will strengthen Maine's future economy.

Teams will attend the international ocean energy conference at no cost.

Questions? 207-624-9803

EnergyOcean Contest is presented by E2Tech, in cooperation with **Maine Department of Economic and Community Development**, to encourage the next generation of professionals toward science, technology, engineering and math-related industries so they will strengthen Maine's future economy.

How does this work?

- Reserve **June 18** on your calendar because summer days fill up quickly!
- Register your team of 1 teacher and 2 students before **June 3**. (*one team per school please*)
- Space is limited. Teams chosen to attend will be notified by **June 5**.
- Design a poster that reflects your Team's interest in ocean energy as a renewable energy to display at conference. Poster ready by **June 10**
- **ENJOY THE ENERGYOCEAN CONFERENCE, June 18, 2009.**
- Review your team notes, share observations and address one of the prompts listed below in a post-conference report (minimum 500 words).
- **Submit report to E2Tech before July 17 to be eligible for \$200 awarded to your classroom in September.**
 1. **Identify potential economic, technical, regulatory obstacles and proposed solutions to development of grid-scale offshore wind resources in Maine and federal waters.**
 2. **What resources and efforts currently exist to promote research and testing need to facilitate siting of offshore wind energy facilities?**
 3. **How can Maine foster in-state growth of diverse wind and other alternative energy related businesses?**

TEAM Registration Form

Even though space is limited, the Team's decision to submit a post-conference report or not -- will have no impact on free Team registration.
